

Captrad GRP Handrails

Captrad Hand Rail Systems offer now various solutions for different situations.

All systems are designed and tested according to the relevant standards. Systems are designed to satisfy both the End User in terms of performance as well as the Contractor in terms of ease of installation and costs

We provide:

- Design/costing services
- Applicable test certificates
- All components in kit form
- Site supervision if required

Advantages of Captrad GRP Handrail Systems:

- Modular for ease of installation
- Lightweight to increase tempo of installation
- Strong enough to take load
- Corrosion resistant
- Thermally non conductive – performs well in subzero temperatures

All systems comprise of the following basic elements:

- Hand rail
- Knee rail
- Toe plate
- Stanchion
- Floor fixing mechanism
- Connectors/splice sections

Design Criteria

Captrad Handrail Systems are designed and tested to EN ISO 14122-3:2001 and BS6399-1:1996.
